We have been working since 2019

More than 300 figures created

ADVANTAGES

Short terms

from 1 month

Reliable guarantee

12 months

Support

During the entire period of operation

IAAPA
MEMBER 2021

CERTIFICATES AND DOCUMENTS

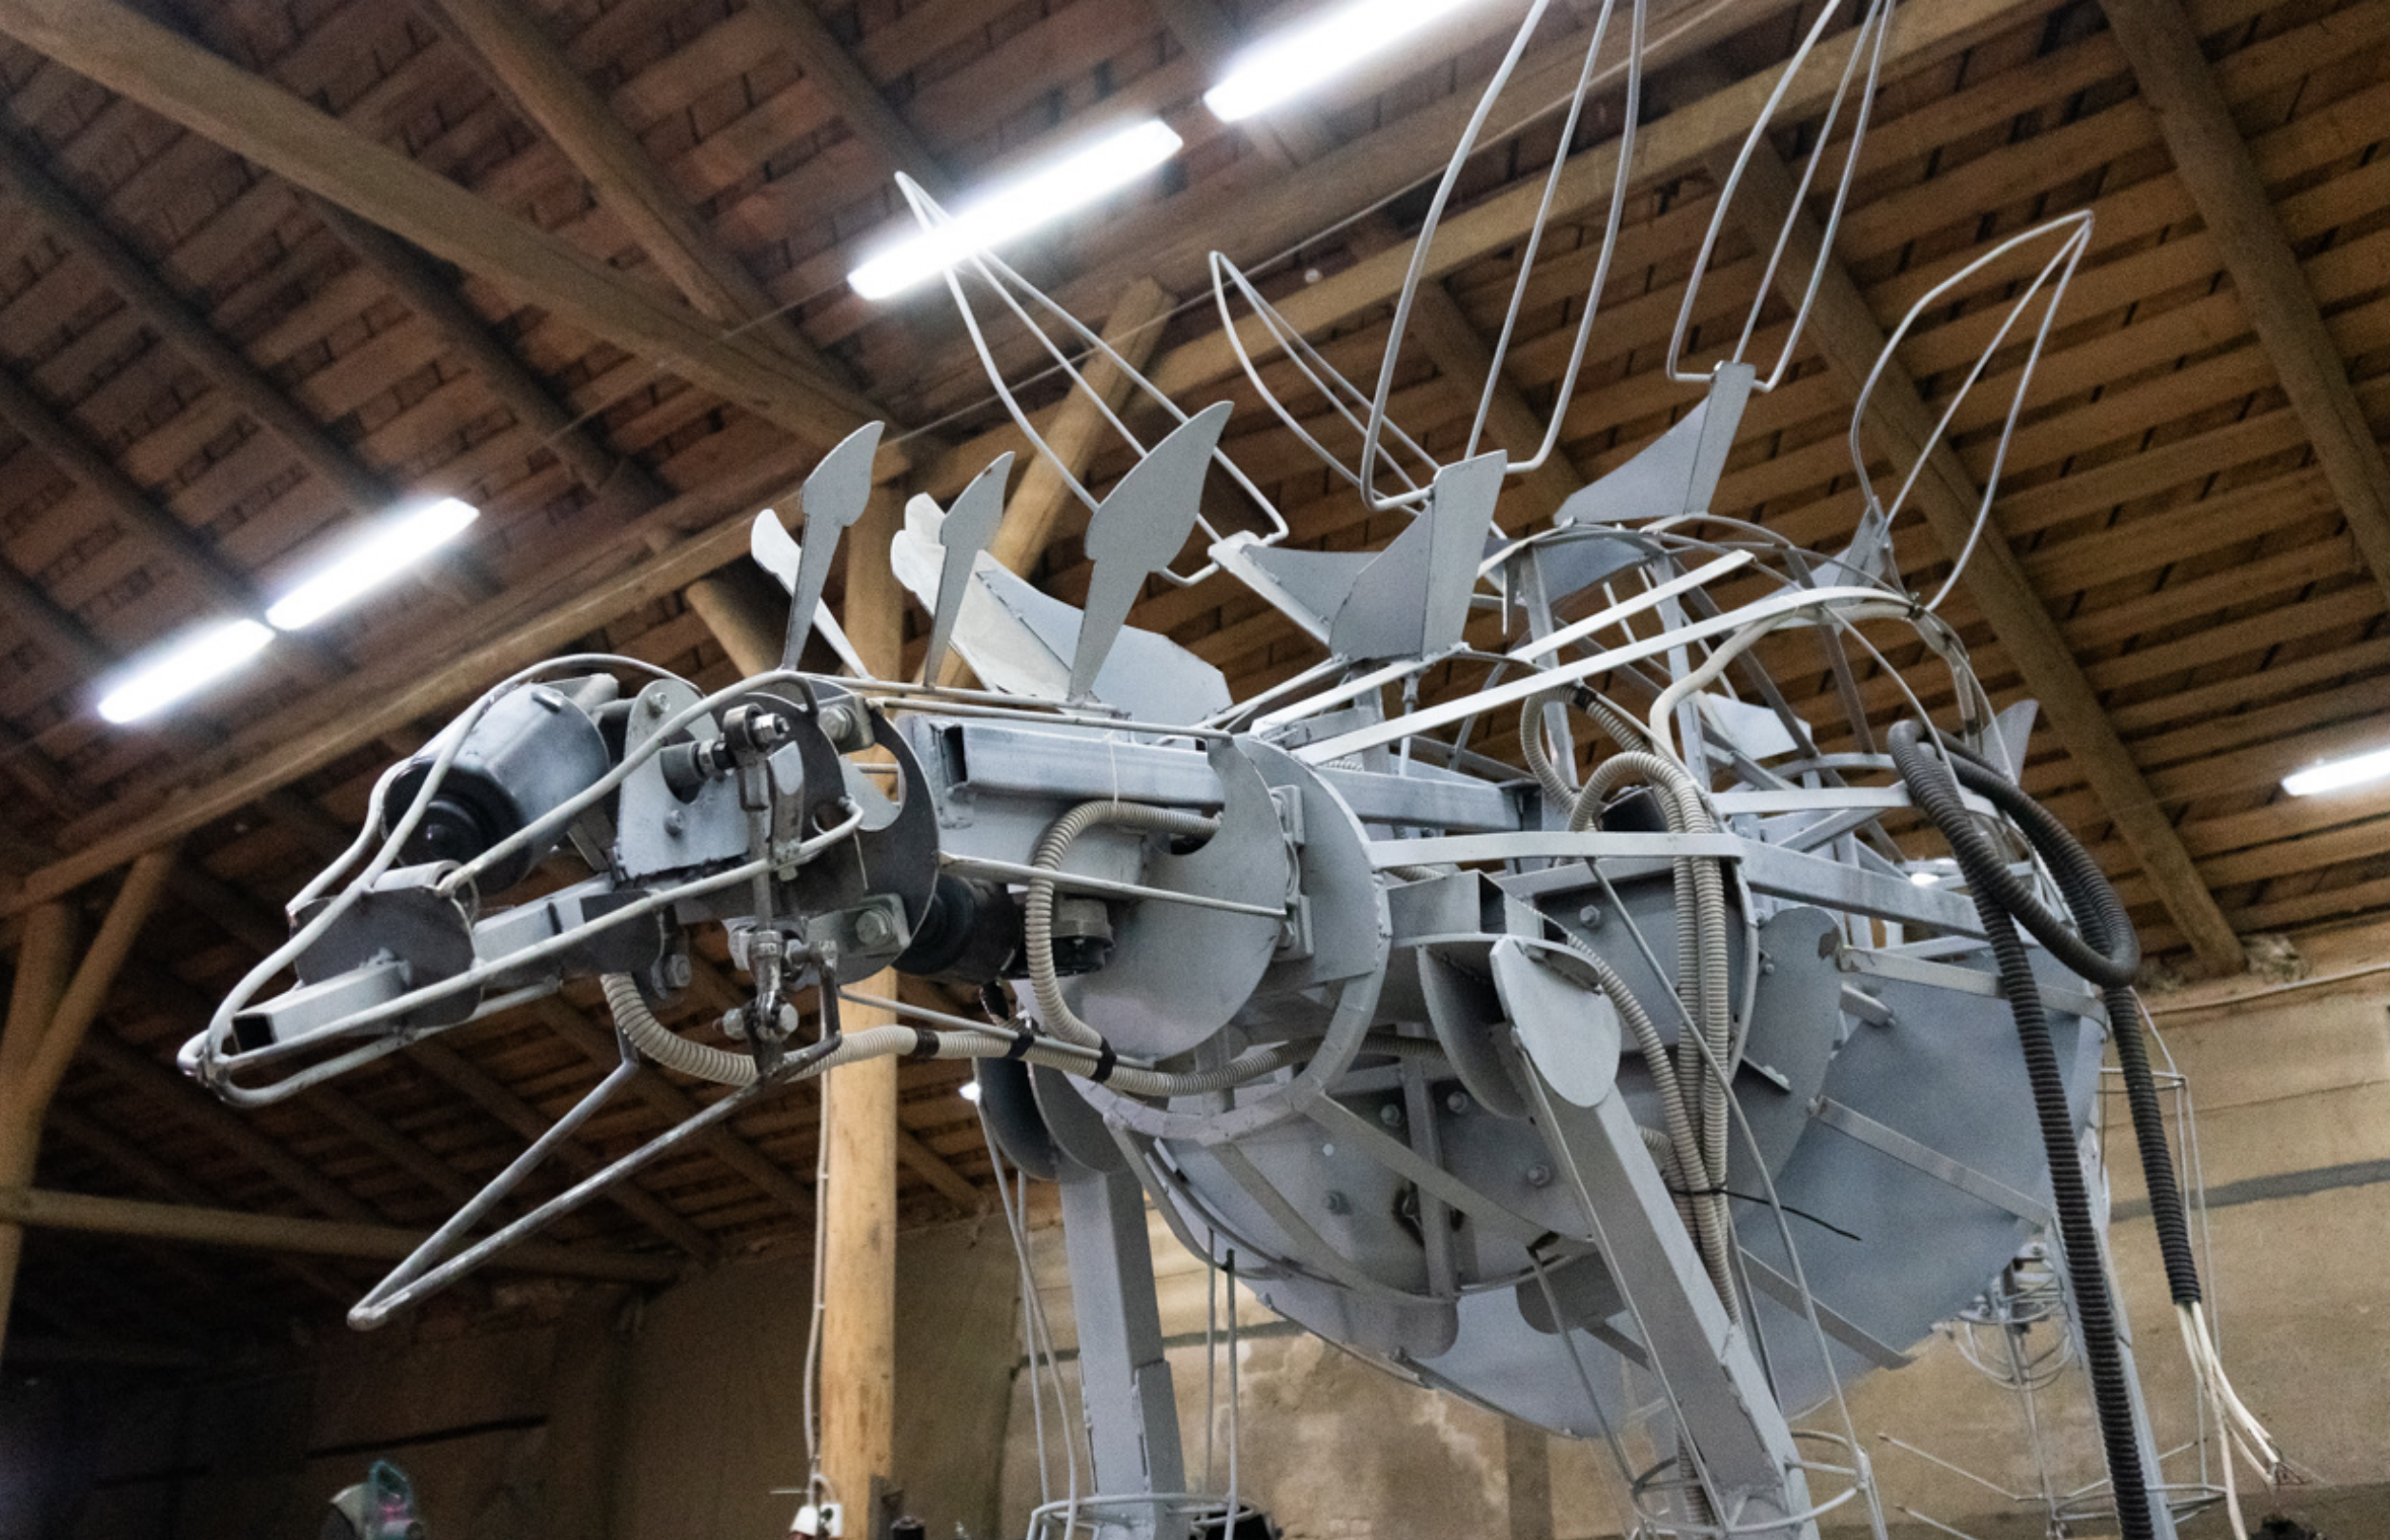

It is safe
to work with us

All the production is certified and complies with GOST and 9001:2015 standards

A decorative certificate template. The border is ornate, featuring a repeating geometric pattern in orange, green, and blue. In the center, there is a circular logo of the Russian Association of Parks and Amusement Ride Manufacturers (RAPPA). The logo depicts a stylized roller coaster car with passengers, set against a background of colorful, radiating lines. Below the logo, the text "Российская ассоциация парков и производителей аттракционов (РАППА)" is written in blue. The main title "СВИДЕТЕЛЬСТВО" is in large, bold, blue capital letters. Below it, the subtitle "о членстве в РАППА" is in smaller blue capital letters. At the bottom, the name "«Динамашина»" is written in bold black capital letters.

Scan the QR code to see all certificates
and get acquainted with them
in more detail

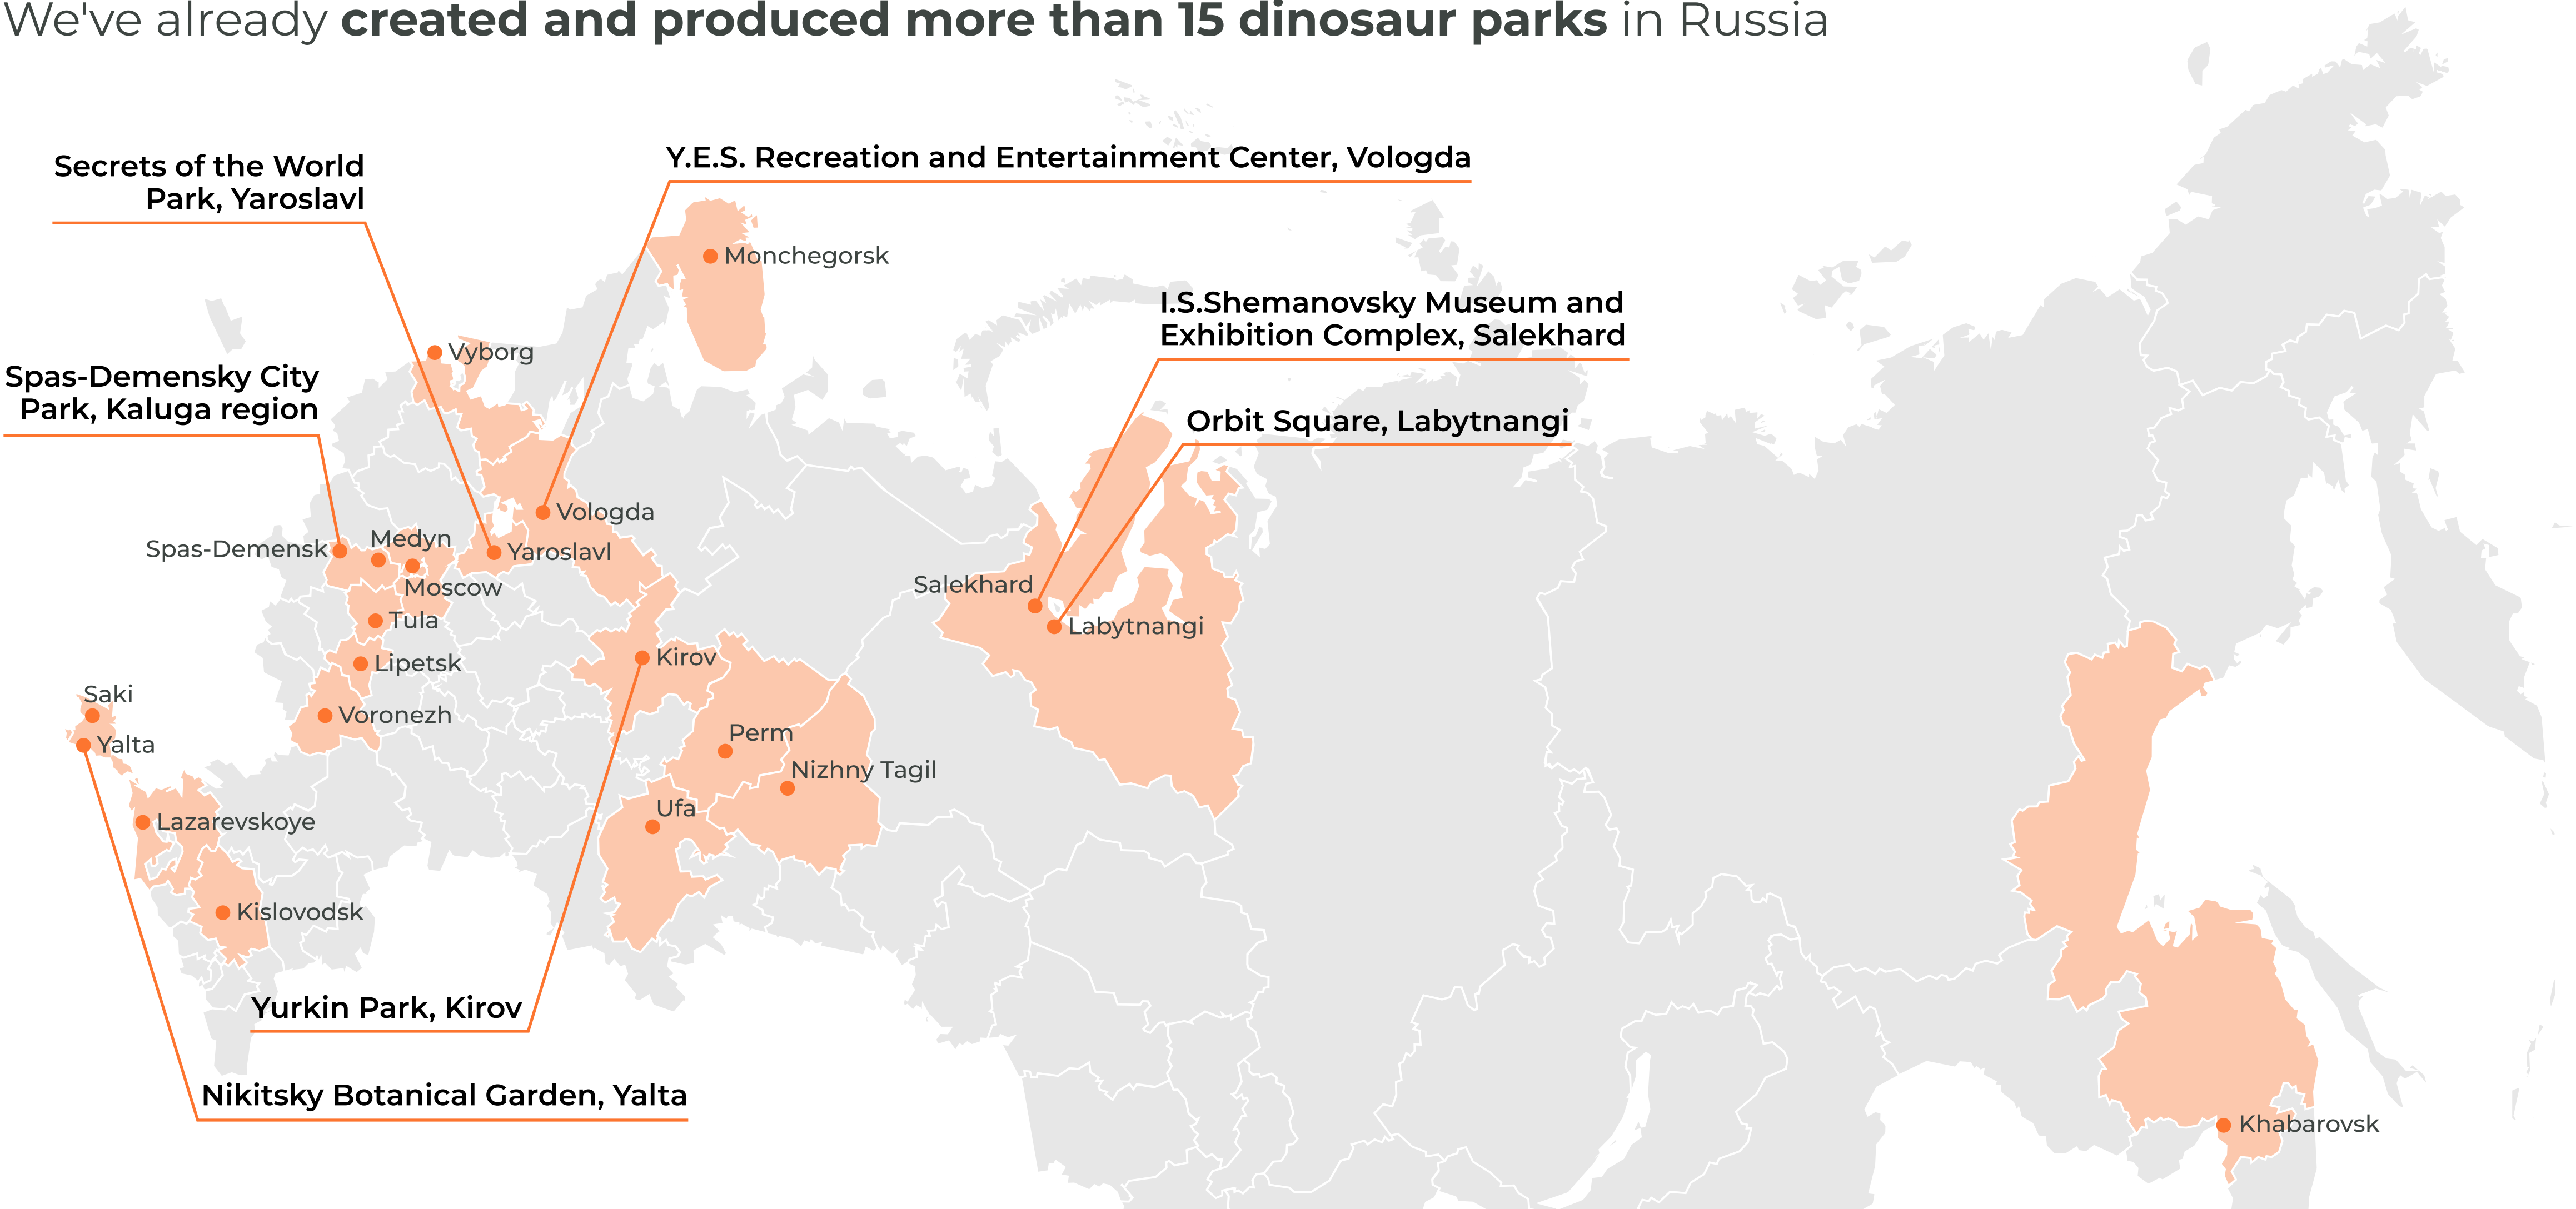

Production

Our experienced and well-trained team and production facilities with an area of 1000 m² allow us to implement projects of any complexity

We successfully create and maintain projects

We've already **created and produced more than 15 dinosaur parks** in Russia

OUR PARTNERS

We work with the major representatives in this field

The leader in modeling technology

The world leader in motion modeling technology

Design and construction of parks

The world's largest expert center for the production of amusement parks

Production of amusement parks with more than 60 years of experience

Order a special project calculation

Each exhibition we created is unique, so every project is calculated individually.

Call or email us and we will provide a preliminary calculation and development plan
